The academic session 2023 - 24 started on 27th March 2023 with class X students. On the very first day of the school Principal along with the teachers welcomed the students' community and made them feel at home with the special morning assembly. In each class, the leadership of the class teacher and subject teachers motivated the students on the importance of education and the school curriculum of the year and rules were explained to them and clarified their little doubts.

The activity-based curriculum is being adopted and executed by our staff to make learning fun and entertaining. Different activities and competitions are being conducted for the overall development of our students from the base level so that we could polish these roughs to the experiences into precious ones. The School demonstrated a satisfactory academic performance in the first periodic test held in the month of May. The examination went on smoothly with all the disciplinary rules maintained.

Various programs and participation in the Olympiads of Science, Maths, and English, itself is the biggest competition where a student competes to outshine others. It infuses a healthy competitive spirit through reward-based assessment. Several students displayed exceptional performance and made significant improvements. Many students have been bestowed with gold medals in the Olympiads of subjects Maths, Science, and English. Classes' participation and engagement in various school activities were commendable. As every Saturday is Activity Day, students have always been enthusiastic for this day and have shown their best talents and arts in various fields such as poster making, poem recitation, calligraphy competition, etc., and have secured ranks too. Sports inculcate the spirit of positive challenges & sportsmanship among the students and prepare them for the life ahead. Sports, Games, and Physical Fitness occupy a place of importance in our curriculum. Along with this, students have shown their talent in physical activities (indoor and outdoor) as well, such as throw-ball, table tennis, chess, carom, etc.

Intra-school competitions and assemblies are being conducted under various houses to inculcate team spirit among the students. The House on duty, performs its duty of conducting the day-to-day activities, and competitions in a systematic and disciplined manner.

One of the unique activities of this year was the election of the student council where the student leaders were democratically elected by the students. General election methodologies were carried out throughout the process. The entire process was actively participated in and appreciated by one and all. The induction of the newly elected council will be done in July 2023.
